## Work Experience

Software Developer at **Pythys** | **Remote**

(Feb 2021 – Present)

- Working on different technologies on the client-side including HTML, CSS, JS, React.js, Next.js, Vue.js, XML, JQuery and FreeMarker
  - Designing mobile applications using React Native and handling state management with Redux
  - Managing projects by handling the ticketing system, contacting the client for requirements, and demoing the latest changes
  - Using different styling libraries and frameworks like Tailwind, Bootstrap, React-Native-Elements, and SASS
  - Creating SQL entities, writing the necessary logic in Groovy/Java to get everything working, and making REST APIs to connect the server to the client
  - Working with third-party libraries like XMPP, Openfire, ConverseJS, and i18Next
  - Using Git in a team environment to coordinate the work amongst my team and to keep track of changes.
- 

## Education

- Bachelor's degree in Mechatronics Engineering at Faculty of Engineering Technology BAU (Jan 2019) [3.22 GPA]
-
